

**Centenary Crime Prevention Unit**  
3131-7355

**Your CCTV has helped us so much in the fight against crime in the Centenary Patrol Group.**

**Can we ask one more favour please?**

*Actual CCTV images of wanted persons in the Centenary Patrol Group area*

**Please train some of your after-hours employees to use your CCTV systems to help us help you in the fight against crime.**

**Often vital investigative time is lost through the inability of after-hours employees to retrieve images of wanted people to provide straight out to patrolling officers and investigators.**

**Images of distinctive features, clothing and vehicles, when provided soon after an offence, speed up the apprehension and identification of wanted persons. Please consider training personnel to operate your systems without the downtime of Police having to wait until business hours the next day.**
