

Queensland's Zero Emission Vehicle Rebate Scheme

About

The Queensland Government's Zero Emission vehicle (ZEV) Rebate Scheme reduces the upfront purchase price of a new eligible ZEV and makes ZEVs more affordable for more Queenslanders. The ZEV rebate targets light passenger and light commercial vehicles as they are largest contributor of greenhouse gas emissions within Queensland's transport sector.

Queensland's Zero Emission Vehicle Strategy 2022–2032 (the Strategy) sets the Queensland Government's vision for increased ZEV uptake across Queensland, driving down greenhouse gas emissions and transitioning to a clean, green economy. The ZEV Strategy continues a shift to ZEV technologies and helps Queenslanders enjoy the lower running costs, cleaner air, and lower emissions from ZEVs compared to a petrol or diesel vehicle (even if charged from the grid).

The Queensland Rural and Industry Development Authority (QRIDA) will administer the scheme on behalf of the Department of Transport and Main Roads.

The ZEV Rebate Scheme is limited to:

- one rebate per individual (life of the scheme)
- five rebates per Queensland Business (per financial year)

How to apply for the ZEV rebate

Applicants can claim the rebate from 1 July 2022 at www.qld.gov.au/zevstrategy.

An application form will need to be completed online, or should a hard copy application be required, applicants can contact QRIDA

Documents for application

Individual applicants will need to provide the following as part of their application process:

- Valid and current Queensland driver licence (for businesses, please provide business contact's driver licence)
- Evidence of residential address (i.e copy of utility or electricity bill)
- Copy of Medicare card or Passport
- Registration Certificate
- Proof of Purchase (Contract of Sale and Dealer tax invoice displaying final payment and date the vehicle was purchased)
- Copy of applicant's bank statement showing name, BSB and account number for transfer of the rebate
- Vehicle details including but not limited to:
 - sale price
 - duty amount paid
 - registration number plate of vehicle
 - vehicle make and model
 - Vehicle Identification Number (VIN).

ZEV rebate scheme eligibility requirements

Applicants

- Queensland resident
- Current and valid Queensland driver license
- Not previously claimed a rebate – in Queensland or other jurisdictions

Vehicles

Vehicles eligible for the scheme must meet all the following criteria:

- be a new ZEV. A new vehicle is defined as a vehicle being registered for the first time
- be a light passenger or light commercial ZEV model
- have a purchase price (dutiable value) up to \$58,000 (including GST). Dutiable value is the total amount paid (including GST) for the vehicle, which includes delivery costs, accessories and options added to the vehicle and any other charges or fees levied by the dealer on the purchaser.
- be purchased in Queensland from a relevant licensed motor vehicle dealer, and registered with the Department of Transport of Main Roads on or after 16 March 2022.

Please note that statutory registration fees and vehicle registration duty are not included as part of the purchase price considerations.

The following vehicles are ineligible for the scheme:

- Second-hand vehicles
- Dealer/demonstrator models
- A retro-fitted ZEV and other vehicle conversion kits (including any other alternative fuel source)
- Hybrid and plug-in hybrid electric vehicles
- Heavy vehicles over 4.5t (including, but not limited to trucks and buses)
- E-mobility devices (including, but not limited to electric/motorised wheelchairs, electric scooters, mobility scooters and electric bikes)
- Electric motorbikes, trikes and mopeds
- Electric boats or marine vessels
- ZEVs registered before 16 March 2022
- ZEVs that are managed through a lease or a fleet management organisation
- ZEVs that have previously received a rebate, grant or subsidy in other Australian state or territories.
